

A New Loan: Sun Pacific Emergency Loan An alternative to the Payday Loan

What is a pay day loan? It is an “Instant Approval”, “No credit check” loan, for a small amount, typically, \$200 to \$1,500. The interest rate may range from 400% to 700%. And the term is usually two weeks.

The finance charge for varying amounts and at 400% and 700% and credit union’s Emergency Loan is shown below:

Two weeks interest			
	Payday Loan 1	Payday Loan 2	Credit Union Emergency Loan
Loan Amt	400%	700%	28%
\$ 200	\$ 31	\$ 54	\$ 2
\$ 400	\$ 62	\$ 108	\$ 4
\$ 600	\$ 92	\$ 162	\$ 6
\$ 800	\$ 123	\$ 215	\$ 9
\$ 1,000	\$ 154	\$ 269	\$ 11

What’s good about a payday loan? It’s easy to get and if repaid in two weeks, the \$31 finance charge on a \$200 loan may be worth the convenience.

What’s bad about payday loans? Most payday loans are not repaid in two weeks. Instead, they are rolled over into a new payday loan. This is when the high interest rate begins to weight on the borrower. After a second and a third rollover, the high interest rate has become a burden. The borrower has paid \$124 to borrow \$200 for eight weeks when the interest rate is 400% or \$216 when the interest rate is 700%.

The credit union alternative is the Emergency Loan

1. Must be a credit union member at least three months.
2. Must be employed three months.
3. Paycheck must be equal to or greater than amount requested.
